Congratulations!

LPM2021
The 22nd International Symposium
on Laser Precision Microfabrication
June 8-11, 2021
Organizer: JLPS Japan Laser Processing Society

The 22nd International Symposium on Laser Precision Microfabrication (LPM2021)

presents

The LPM 2021 Outstanding Student Paper Award (Full Oral Presentation)

to

Mr. Aofei Mao

University of Nebraska - Lincoln, USA

for the paper entitled

**"Programmable shrinkage of two-photon polymerized materials
for 3D micro-nano origami formation "**

(Submission ID 125)

JLPS

Dr. Hiroyuki Niino, General Chair, LPM2021

Congratulations!

The 22nd International Symposium on Laser Precision Microfabrication (LPM2021)

presents

The LPM 2021 Outstanding Student Paper Award (Full Oral Presentation)

to

Mr. Goran Erik Hallum

Munich University of Applied Sciences, Germany

for the paper entitled

"Time resolved ablation dynamics of indium tin oxide"

(Submission ID 175)

June 11, 2021

H. Niino

Dr. Hiroyuki Niino, General Chair, LPM2021

The 22nd International Symposium on Laser Precision Microfabrication (LPM2021)

presents

The LPM 2021 Outstanding Student Paper Award (Full Oral Presentation)

to

Mr. Jens Oltmanns

Institut für Nanophotonik Göttingen e.V., Germany

for the paper entitled

"Investigation of the plasmonic nature of laser-induced periodic surface structures"
(Submission ID 79)

June 11, 2021

H. Niino

Dr. Hiroyuki Niino, General Chair, LPM2021

Congratulations!

The 22nd International Symposium on Laser Precision Microfabrication (LPM2021)

presents

The LPM 2021 Outstanding Student Paper Award (Short Oral Presentation)

to

Ms. Miki Nakaone

Tokyo University of Technology, Japan

for the paper entitled

"Development of AI for estimating laser power from temperature distribution"
(Submission ID 81)

June 11, 2021

H. Niino

presents

The LPM 2021 Outstanding Student Paper Award (Short Oral Presentation)

to

Mr. Evaldas Kažukauskas

Laser Research Center, Faculty of Physics, Vilnius University, Lithuania

for the paper entitled

"Micromachining of transparent biocompatible polymers applied in medicine
using bursts of femtosecond laser pulses"

(Submission ID 74)
