

Amada's Fiber Laser Technology

Processing Technology
Making Full Use of Laser Beams

Amada, as a leading manufacturer of sheet-metal machines, has successfully developed Fiber laser oscillator for metal cutting for the first time in the world. We will continue to provide laser machines that meet the needs of our customers.

Ultra high speed

3-axis Linear Drive Fiber Laser Machine
REGIUS AJ SERIES

6kW 9kW

Flexible laser beam control

Fiber laser Machine Equipped with LBC Technology
VENTIS AJ SERIES

4kW

1 second piercing!

*25mm mild steel (9 kW)

Fiber Laser Machine Equipped with ENSIS Technology
ENSIS AJ SERIES

3kW 6kW 9kW

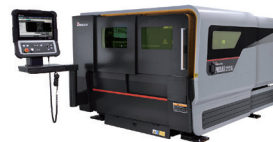

Compact

All-around Fiber Laser Machine
BREVIS 1212 AJ

3kW

High Precision

High Precision Fiber Laser Machine
PRELAS 1212 AJ

1kW
