

LPM2024

The 25th International
Symposium on Laser
Precision Microfabrication

PI

The 25th International Symposium on Laser Precision Microfabrication
presents

**LPM2024 Outstanding Student Paper Award
(Oral)**

to

**Iñigo Ramón - Conde
(Ceit)**

for the paper entitled

**“Burst Mode Femtosecond Laser Polishing: Complex Profile
Surface Roughness Reduction Without Damage”**

June 14, 2024

Dr. Yasuhiro Okamoto, General Chair, LPM2024

LPM2024

The 25th International
Symposium on Laser
Precision Microfabrication

PI

The 25th International Symposium on Laser Precision Microfabrication
presents

**LPM2024 Outstanding Student Paper Award
(Oral)**

to

Luis Omeñaca
(Ceit)

for the paper entitled

**“Investigation of femtosecond laser introduced multi pulse
ablation of aluminium surfaces”**

June 14, 2024

Dr. Yasuhiro Okamoto, General Chair, LPM2024

LPM2024

The 25th International
Symposium on Laser
Precision Microfabrication

PI

The 25th International Symposium on Laser Precision Microfabrication
presents

LPM2024 Outstanding Student Paper Award (Oral)

to

Martin Lentz
(EPFL)

for the paper entitled

**“Glass microlens - arrays with distributed focal distances
manufactured using femtosecond laser processing and laser
thermal reflow”**

June 14, 2024

Dr. Yasuhiro Okamoto, General Chair, LPM2024

LPM2024

The 25th International
Symposium on Laser
Precision Microfabrication

PI

The 25th International Symposium on Laser Precision Microfabrication
presents

**LPM2024 Outstanding Student Paper Award
(Oral)**

to

Mantas Gaidys
(LTS - FMC)

for the paper entitled

**“Efficient laser surface colouring on stainless-steel using
femtosecond GHz bursts”**

June 14, 2024

Dr. Yasuhiro Okamoto, General Chair, LPM2024

LPM2024

The 25th International
Symposium on Laser
Precision Microfabrication

**LIGHT
CONVERSION**

The 25th International Symposium on Laser Precision Microfabrication
presents

LPM2024 Outstanding Student Paper Award (Poster)

to

Kenta Tokumi
(University of Tokyo)

for the paper entitled

**“Quantitative measurement of femtosecond laser-induced
stress field by singleshot imaging”**

June 14, 2024

Dr. Yasuhiro Okamoto, General Chair, LPM2024
